Certifications & Warranty

Hybrid Tub

Combines stainless steel and plastic for greater durability, improved heat retention, and less moisture buildup.

Heated Dry

Adds a heated air phase after the wash cycle to reduce moisture, enhance drying performance, and deliver cabinet-ready dishes.

Digital LED Timer

Displays the time remaining in the current cycle for easy reference.

LED Tub Light

Illuminates the dishwasher's interior for greater visibility while loading and unloading.

Folding Tines

The lower rack features adjustable tines that allow it to hold dishes of various sizes.

Height-Adjustable Rack

Easily raise and lower the top rack by 2 inches to create space for taller items on the rack below.
