

# PTHC155GCSSLHD

71.5" x 23.63" x 23.75" (H x W x D)

Single chamber passive heating blanket warmer with a self-closing glass door, stainless steel interior, digital thermostat, stainless steel cabinet, and lock

**Highlights:**

- Designed and assembled in the USA
- No internal fans or moving parts ensure silent, safe, and efficient operation
- Stainless steel interior ensures durable use and easy cleaning

**Product Features:**

|                                 |                                                                                                                                        |
|---------------------------------|----------------------------------------------------------------------------------------------------------------------------------------|
| 90 to 140°F temperature range   | Designed and set to keep blankets warm in hospitals, medical and physical therapy offices, spas, and other facilities                  |
| Passive heating                 | Fixed heaters located at the bottom of the cabinet with no fans or moving parts to minimize lint buildup for safer, more efficient use |
| Digital thermostat              | Electronic controls are conveniently located for easy temperature adjustment                                                           |
| Electronic readout              | Large LED temperature display ensures your staff can easily monitor the interior temperature                                           |
| Silent operation                | No moving parts to ensure a quiet performance                                                                                          |
| Double pane tempered glass door | Heat-safe glass door offers a full view of stored contents, with a stainless steel door trim to highlight the interior                 |
| Professional handle             | Stainless steel handle completes the professional look                                                                                 |
| Self-closing door               | Door will automatically close when left ajar, preventing items from accidentally being left exposed to ambient temperatures            |
| Stainless steel interior        | Interior walls are constructed from stainless steel to ensure lasting durability and easy cleaning                                     |

Technical drawing of the Puretherm Warming Cabinet, showing top and front views with dimensions.

**Top View Dimensions:**

- Overall width:  $23\frac{5}{8}$
- Overall depth:  $20\frac{7}{8}$
- Interior width: 20
- Interior depth:  $16\frac{1}{2}$
- Top panel thickness:  $1\frac{1}{8}$
- Bottom panel thickness:  $1\frac{1}{8}$
- 5'-0" LG. ELEC. CORD (5 feet long electrical cord)

**Front View Dimensions:**

- Overall height:  $71\frac{1}{2}$
- Top panel height:  $1\frac{3}{4}$
- Interior height: 57
- Bottom panel height:  $4\frac{1}{2}$
- Lock (located on the bottom panel)
- ELEC. CORD (Electrical cord)

**Internal Features:**

- Interior shelves: 6 shelves, each  $16\frac{1}{2}$  wide.
- Glass door (indicated by diagonal lines in the front view).
- Lock (located on the bottom panel).
